Game ideas for Carnival

Balloon Dance

Each dancing couple gets an inflated balloon. The couple has to hold the ballon with their bellies, shoulders or heads. Use of hands is not allowed. Now all couples start dancing to the music. Once a balloon falls down, the couple drops out. All remaining couples continue dancing. The couple with best aptitude wins.

Chair Carousel

All children take seats in a circle of chairs. One chair is free. One child is standing in the centre of the circle and tries to get the free chair. Once they hear a command all other children slide over to the next chair, the child sitting next to the free chair starts. Than the neighbour follows and so on. The children change their seats faster and faster. The child that lost its seat has to be the next in the centre.
